In his Detroit speech Mr. Depew called attention to the fact that 180,000 miles of the 199,000 miles of railroad in the world are contained within the United States, and about four-sevenths of the total freight carried on the railroads of the world last year one hundred miles or more were carried on the railroads of this country. From these and other facts the speaker drew the conclusion

The Internal commerce of the United States makes our country the most wonderful market this globe has ever known Our internal commerce is so yast and so beneficent that the sum of the traffic of Rome when she commanded the world, of Genoa, when she was Queen of the Mediterranean, and of Venice when she dominated the seas, is compared to it but as a rivulet to the Father of Walers. It is well to remember these facts. It is well to remember these facts when our Democratic friends open up their pet argument concerning the markets of the world. We have the best market in the world right at home and its wondeful development is the best possible evidence of the wisdom of the protective system under which this flat-

tering condition was attained. An enuraging feature of the situation to-day has the people having had a surfect of the people having had a surfect of the people after false gods now appreciate people after false gods now appreciate and the people after many and the recent elections.

The prevalling opinion among the lawyers in Washington who have followed the arguments in the income tax hearing is that the court will declare the entire law unconstitutional.

The Democratic papers pretend to find some satisfaction from a purty standpoint in the fact that business is improv-ing While shouting the fact they lose sight of the cause Business was all right in this country prior to the advent of a Democratic President supported by a Democratic Congress This combina tion was fatal to business prosperity and the country has been passing through the worst era of deprezsion in the memnumble to do any further damage wages ory of the present generation. The care approaching the scale that prior to the cut mado accessary by reason of the business depression caused by danger from that source is discounted by the election of a Republican House of Rupresentatives, hunce the revival of business Reat Jear the people will complete the werk so vigorously began in 1894 and clean out the White House the cost of which will amount to the very after which this country will resume its industrial supremucy in the nations of

Cont yesterday made an important
ruling in the case of State vs 22-Treasurer Hill to recover \$66,000 lost by Hill
in the Capital Bank failure. The court
holds that a treasurer is an absolute
insurer of public funds coming into his
hands. This is one step forward in
determination of a big suit as the roling
means that the treasurer must account
for and turn over all funds received by
him.

Republican hayorally cancus, hast March, in which Doyle was a candidate

A dispute over schools in the town of Naples was brought before Judge Whitehouse in Portland, Juosday At the hust town meeting three new Republican school committeemen were chosen. Two Democrats remained on the old board. They refused to recognize the Republicans and elected Dr. Hounds, superintendent. The Republicans also organized and elected John B. Clark, superintendent. The Republicans also organized and elected John B. Clark, superintendent. The motion was made bafore Judge Whitehodae, Tuesday, by Dr. Rounds, for a preliminary injunction to restrain Superintendent Clark from exercising the duties of the office The Judge refused to grain the lujunoiton, saying that it seemed to him the town had a right to clear three new school committeemen and that it blooked as if Clark was defacts superintendent. The only way it og set, the matter finally settled would, be before the law court in July. It is not known whether the matter will be carried to the law court. Mepawhile both superintendents keep their feachers in the Naples schools and the most of the schools have two teachers.

The National Guard of Maine is floutishing in nearly every city and town which has a company. The larget news of spiceal note is that Portland proposes to hive a new armory for the "boys in blue" of that city and that for a startet \$20,000 will probably be appropriated the J-1 so had the following. It is proposed to have two buildings, one to fice, silver strict, to be dedicated to the National count of the city to be used as an armory being a gift from the city context to the building will be a big hall which will be under the exclusive control of the city council, to be used as they see fit, but permission will be given for its use as a drill hall for the militial any lime it is not in use. The buildings will be of brick with a handsome front the officers and company quarters being fitted up with all mode in conveniences. It is in not intent on it in city to keep the city this for coff chamicals and let it for other things it wanter. She fill or 500 or \$10.000.

Where intoxicating liquors are bought in another State, with the intention of selling them in this State in violation of law, the vendor cannot maintain an action to recover the purchase price in any of the courts of this State, by reason of R > Chap 27, see 56. And it is immaterial whether or not such vendor knew the illegal intention upon the part of the purchaser or in any way partial pated in the same.

The statete referred to is not in violation of that clause of the federal constitution, which gives Congress the power to regulate commerce between the States And was not prior to the act of Congress, approved August 8, 1840, making interstate commerce relating to intoxicating liquors subject to the pilice powers of the several States. Resout by Winnell J.

liquors subject to the police powers of the several States. If liquors were bought in another State, prior to the act of August 8, 1890, with intention to sell them in this State in the original packages, it would not, at that time, have been an intention to violate the law. But the court linds that the purchaser of these liquors, bought before August 8, 1890, did not intend to sell them in the original packages, but did intend to sell them at retail and in violation of law. State vs. Robert Bronrigg | 1 xcep- it two straight

At the April term, 1894, of this court for Wuldo county, the defendant was indicated for keeping a common nuisance, on the 17th day of October, 1894, and on divers other days and times between that day and the day of the finding of the indictment. He seasonably pleaded in offense and offered in evidence the same county, he was indicted for keeping a common nuisance at the same place, on the first day of May, 1893, and on the finding of the court for the same county, he was indicted for keeping a common nuisance at the same place, on the first day of May, 1893, and on the finding of that indictment. And a conviction, judgment and sentence under this last indictment. The October term, 1893, of the court commenced upon the first day of October, the indictment, found at that term, was reported to the court upon the 51st day of October Held That the day of the finding of an indictment by the grand jury, is the day entered to the court.

when the indictment is returned and presented to the court
The test is not what facts, were effered in evidence in the trial upon the first indictment, but from the record, what facts might have been proved under the indictment, and whether the same facts, if proyed under the indictment, and whether the same facts, would warrant a conviction

In a 'trial upon the indictment found at the October term, 1893, the State might have proved that the defendant kept and manualned a common nuisance between the seventeenth and the thirty-first days of October, 1893. In a trial upon the present indictment the same evidence, confined to the same period of time, would warrant a conviction for the same officuse.

Bangor is a great ball town We have always known that and we don't claim any great originality in making hat re mark, but that fact was again demon strated very plainly yesterday when the first game in the New England league. The annual meeting of the 7th Maine
Batlery Association will be field at the headquarters of the 1st, 19th and 29th Maine Regiments on I ong Island, Portland barbor, June 20 22

Mr Hipam Cole, an old and annual meeting and the lightning Bashing much. senson on the home grounds was played

the rain was pouring down the thunder rolling and the lightning mashing made not the slightest difference to a great many and wet humanity poured in through the gates at a time when it looked as though net even a hilf inning could be releved.
